Education

Your University Aug 2024 – Present
Bachelor of Science in Computer Science *City, Country*

Experience

Software Engineering Intern Jun 2025 – Aug 2025
Example Company *City, Country (Remote)*

- Built feature X that achieved Y outcome — describe scope, tech, and impact in one tight sentence per bullet.
- Shipped Z by collaborating with N teammates; reduced metric M by some percent.
- Owned an end-to-end slice of the product, including API, UI, and tests.

Research Assistant Jan 2025 – May 2025
University Lab *City, Country*

- One-line accomplishment with concrete numbers and the technology used.

Projects

example-app | ★ 1k stars – short one-line description of what it does and why it matters
another-tool – a CLI that does X for Y
closed-source-thing (closed source) – internal project; describe scope, not internals
learning-project – built to learn N; one-liner about result
landing-page-clone – recreation of X landing page with modern stack
api-wrapper – minimal SDK around the X public API

Open Source Contributions

popular-repo | ★ 100k stars – fix: short one-line summary of the merged PR
another-repo | ★ 10k stars – feat: implement a small but useful improvement
small-repo | ★ 500 stars – docs: clarify usage section

Honors & Awards

Recent Award – short context (issuer, what it was for) 2026
Dean's List – CGPA range, university name Feb 2026
Hackathon Winner – event name, placement 2025
Older Honor – one-line context 2024

Technical Skills

Languages: TypeScript, Python, Go, Rust, SQL
Frameworks & Libraries: React, Next.js, Node, FastAPI, Tailwind
Databases & Tools: Postgres, Redis, Docker, Git, AWS, Vercel
AI Tools: Claude, Claude Code, ChatGPT, Cursor
Platforms: Web, iOS, Android, CLI, Linux
